Assignment for MGT 682: Healthcare Executive Placement Internship/Project

In order to receive credit for the healthcare executive placement internship, the student must complete a paper evaluating their experience. The paper is a reflection on the knowledge you acquired from completing a project at your current place of employment and should include the following topics:

1. Describe the project that you completed. Include in this description an analysis of why it was beneficial for your institution to undertake this project. You should use some of the knowledge you gained from your management courses here—some possible frameworks include Porter’s Five Forces, SWOT analysis, value chain, etc.

2. Identify three skills that you used or developed by implementing this project. Give specific examples.

3. Why are these skills important for healthcare professionals? Your discussion should incorporate 2 main provisions of the PPACA.

Paper guidelines:

Length: Between 4 and 6 pages; 11 point font, conventional margins

This paper should be well written and free of grammatical errors. The paper must include both an introduction and a conclusion. The introduction should inform the reader as to the content of the paper. The conclusion should summarize your most important points. There should be no new information introduced in the conclusion.

Refer to the attached rubric as you write your paper. To receive credit, the student must receive a score of at least 25 out of 35 possible points. If the student initially receives a grade of less than 25 points, the student will edit the paper until a score of 25 is earned.

Please be aware if the paper is turned in with grammatical errors so numerous that they make the paper difficult to follow, the paper will be returned without a grade and the student must make the necessary grammatical corrections before the paper will be fully reviewed and graded. The completed paper should be a document that you can provide as a writing sample to a prospective employer.
